16. REMARKS:**BLOCK 4:** Contractor's format is acceptable.

Delete paragraphs 10.2(c) and (d).

The study shall include the following:

1) The study shall identify the contractor's understanding of the spaceport requirements of Sample Mission 1 for executing the launch from the Kodiak Launch Complex (KLC).

a) The contractor shall demonstrate understanding of the spaceport efforts by describing necessary spaceport activities for implementing the Sample Mission 1 launch campaign.

b) The contractor shall provide an initial Statement of Work (SOW) which describes how efforts in 1(a) above shall be accomplished.

c) The study shall identify any spaceport deficiencies and possible solutions or work-arounds.

d) The contractor shall provide a matrix identifying the potential Government agencies and associated contractors necessary to ensure successful launch. (i.e. Range Safety, Experimenters, Program Office, etc.)

1) The matrix shall identify the spaceport resources required to perform the functions of each of the identified Government agencies/associated contractors.

2) The study shall provide a rough order of magnitude (ROM) of the launch services contractor's and Spaceport costs to perform the spaceport efforts as described.

3) Range safety/operations/telemetry shall be considered as part of this study to prove understanding of spaceport/launch needs, but range services shall be provided by the Government.

4) The study shall include a recommendation, with justification, of whether or not the spaceport services should be included in a launch services contract.
